## Terminology Services - Terminology and Acronyms Report

Term	Acronym	Vocabulary	Vocabulary Type	Preferred Term
Job Hazard Analysis	JHA	EPA EV-Research- Research Resources- Analytical Methods &Protocols	Taxonomy	
Definition: A JHA is a technique to identify hazards for specific job tasks before they occur. It focuses on the relationship between the worker, the task, the tools, and the work environment. After hazards are identified, controls are implemented to eliminate or reduce them to an acceptable risk level. [EPA Emergency Responder Health and Safety Manual - Chapter 11: Bloodborne Pathogens Exposure Control Plan]				
Jet Stream	JSTR	EPA EV-Natural Environments- Atmosphere	Taxonomy	
Definition: Relatively strong winds concentrated in a narrow stream in the atmosphere, normally referring to horizontal, high-altitude winds. The position and orientation of jet streams vary from day to day. General weather patterns (hot/cold, wet/dry) are related closely to the position, strength and orientation of the jet stream (or jet streams). A jet stream at low levels is known as a low-level jet. [[NOAA National Weather Service Glossary]
