Term	Acronym	Vocabulary	Vocabulary Type	Preferred Term
Extended Architecture	XA		Abbreviation and Acronym List	
Cross-System Coupling Facility	XCF		Abbreviation and Acronym List	
eXtensible Hypertext Markup Language	XHTML	Linked Data Glossary	Glossary and Key Word List	
Definition: A family of versions of HTML based on XML and standardized by the W3C. See also XHTML 1.0 The Extensible HyperText Markup Language (Second Edition) [XHTML1 (http://www.w3.org/TR/xhtml1/)].				
Excellence	XL	Contracting-Related Terms	Glossary and Key Word List	
Extensible Markup Language	XML		Abbreviation and Acronym List	
Extensible Markup Language	XML		Abbreviation and Acronym List	
eXtensible Markup Language	XML	Linked Data Glossary	Glossary and Key Word List	
Definition: XML [XML (http://www.w3.org/TR/REC-xml/)] is a specification for creating structured textual computer documents, subset of SGML enabling such documents to be served, received and process on the Web in the same way as HTML documents . There are many thousands of XML formats, including XHTML. It is part of a family of standards from the W3C. See also [XHTML1 (http://www.w3.org/TR/xhtml1/)].

Terminology Services - Terminology and Acronyms Report

Term	Acronym	Vocabulary	Vocabulary Type	Preferred Term
Language		Glossary	List	
Definition: Extensible Markup Language (XML) is a simple, very flexible text format derived from Standard Generalized Markup Language (SGML) (ISO 8879) as an application profile or restricted form of SGML. [adapted from W3C XML Specification]				
eXtensible Markup Language	XML	Reusable Component Services (RCS) Glossary	Glossary and Key Word List	
Definition: A set of rules for encoding documents in machine-readable form.				
Extensible Markup Language	XML	Contracting-Related Terms	Glossary and Key Word List	
Extensible Markup Language	XML	Exchange Network Glossary	Glossary and Key Word List	
Definition: A flexible language for creating common information formats and sharing both the format and content of data over the Internet and elsewhere. XML is a formatting language recommended by the World Wide Web Consortium (W3C). For guidance on the development of XML schema for the Exchange Network or related activities of the Network Technical Group, see the Exchange Network website at http://www.exchangenetwork.net .				
Extensible Markup Language	XML	Emissions Inventory System Glossary	Glossary and Key Word List	
Definition: A markup language for documents containing structured information. The XML specification defines a standard way to add markup language to documents. Its primary purpose is to facilitate the sharing of structured data across different information systems, particularly via the Internet.
